“FLUIDIC”

***a project by Simona Soare and Marta Jecu
with Anca Benera, Dan Ionut Popescu, Ioana Alexe-Ecker, Casa Gonz, Ciprian Muresan***

September 26 - October 7, 2006

Opening: September 26, 2006 / 7pm

The game as analytical method, as deconstructive practice, as stimulator of communication, is the background of the project FLUIDIC proposing a series of exhibitions in Berlin and Bucharest. In the frame of FLUIDIC, works by Anca Benera, Dan Ionut Popescu, Ioana Alexe-Ecker, Casa Gonz, Ciprian Muresan will be presented at PLAY_gallery for still and motion pictures. The artists' works challenge definite solutions and patterns of interpretation. Without aiming at the perfection of a product and at an image for a previously formulated discourse, all works exhibited bring in the potentiality of the unexpected, of the chance, in order to connect subjective experiments to social statements. Through a playful approach the artists question not just the conceptual *modus operandi* but as well the dominant structures in which the artworks usually appear and operate. Dan Ionut Popescu questions common, media-conditioned habits. Relating to the Rumanian cultural consciousness and through minimal staging, Ioana Alexe Ecker lays bare daily patterns of thought and experience's clichés. Daniel Gontz's *PolTur* deconstructs authoritarian mechanisms and political conducts of contemporary Romania by using their own means. Anca Benera's *The Collectors* analyses individual and social systems of representations. Ciprian Muresan re-contextualises a run-across, social substance that he develops into an autonomous discourse.
